

KiwiRail

KiwiRail's National Manager Health Safety & Environmental, Paul Anderson, and Health & Injury Prevention Manager, Shelley Leuchars, will present a paper covering the effective **Injury Management & Rehabilitation in the Rail & Maritime Industry** and the **Introduction and Use of the Predict Workplace** software.

This presentation is primarily focused on those Occupational Nurses who are service providers to Kiwi Rail (previously Toll NZ Consolidated Ltd) but all conference attendees are welcomed to participate.

Short Bio's

Paul Anderson

- HSE professional driven by the challenges of excellence in process development and performance improvement particularly in occupational health and safety
- Maintains involvement in ACC workstream groups the most recent being the Accredited Employer programme Operational Review
- Experience in the healthcare, civil & residential construction, hospitality, road rail & maritime transport sectors

Shelley Leuchars

- Developing injury prevention professional with a proven employment history with injury case management and rehabilitation
- Relationship builder between medical providers, managers and claimants
- Experienced from the perspectives of employer, TPA and ACC

KiwiRail OccNurses Meeting
2.30pm to 3.30pm 11th September 2008
Aotea Centre, Upper NZI Room 3

AGENDA

INTRODUCTION OF 'PREDICT' KIWIRAIL VERSION

OCCNURSE INVOLVEMENT IN KIWIRAIL:
INJURY MANAGEMENT & REHABILITATION
MEDICAL ASSESSMENTS
MEDICAL STANDARDS (RAIL & MARITIME)

RSVP to Paul Anderson
Fax 09 363 7319
Email panderson@kiwirail.co.nz

Your participation at this event is important to you and to KiwiRail to ensure that you remain as an approved occnurse provider.

KiwiRail have a responsibility to ensure that all medical providers understand our Rail and Maritime specific medical standards that apply when conducting employee medical assessments, how that information will be recorded, reported and reviewed in PREDICT and what KiwiRail expectations are for injury management and rehabilitation.
